Fund Manager's Comment: KFI6MD-BR Fund has an actual investment portfolio which is different from the investment portfolio that was shown on the Fund Fact Sheet - in that added 1 security issuer and the investment proportion of 1 security has been changed due to market movements of foreign interest rates and/or foreign exchange rates during the IPO period. Nevertheless, the overall credit rating of the actual portfolio does not significantly differ from that of the portfolio as shown on the Fund Fact Sheet and there is no impact to the estimated return of the Fund.
