Bloomberg Code :

Description

Maximum Drawdown is the percentage of the fund's maximum loss in the past 5 years (or since the fund's inception if it is launched for less than 5 years) which is measured from the highest NAV per unit to the lowest NAV per unit during such period. Maximum Drawdown is an indicator of the risk of loss from investing in the fund.

Recovering Period is the length of time that the fund takes in recovering from the point of maximum loss to earning back the initial investment.

FX Hedging is the percentage of foreign currency investment with FX hedging.

Portfolio Turnover Ratio (PTR) is the frequency of securities trading in the fund portfolio over a certain period, calculated by taking the lower value between the sum of the value of securities purchased and the sum of the value of securities sold of the fund in 1 year period divided by the average NAV in the same period. A fund with high Portfolio Turnover Ratio indicates frequent securities trading by fund manager resulting in high trading costs. Therefore, it is necessary to compare with the performance of the fund in order to assess the worthiness of such securities trading.

Sharpe Ratio is the ratio between marginal return of the fund compared to investment risk, calculated from the difference between the fund's rate of return and risk-free rate compared to the fund's standard deviation. Sharpe Ratio reflects the additional return that the fund should earn to compensate risk. A fund with higher Sharpe Ratio is considered having superior investment management efficiency as it generates higher marginal return under the same risk level.

Alpha is the fund's excess return compared to the benchmark. High Alpha means the fund can generate higher return than the benchmark resulting from fund manager's efficiency in selecting securities or seeking appropriate market timing.

Beta is level and direction of change in return of securities in portfolio in comparison to market price change. Beta of less than 1 indicates that the change in return of securities in portfolio is less than the overall market. Beta of more than 1 indicates that the change in return of securities in portfolio is greater than the overall market.

Tracking Error is the efficiency of the fund to imitate its return to benchmark. Low Tracking Error means the fund is effective in generating return close to benchmark. High Tracking Error means the fund generates return more deviate from benchmark.

Yield to Maturity is the rate of return earned on a bond held to maturity, calculated from the interest expected to receive in the future over that bond duration and paid back principal discounted to the present value. It is used to measure return of fixed income funds by calculating the weighted average of Yield to Maturity of each bond that the fund invests. As Yield to Maturity has standard unit in percentage per annum, it can be used to compare the returns between fixed income funds that have an investment policy of holding bonds until maturity and similar investment characteristics.

Duration and Yield to Maturity will be calculated based on direct investments.

The Investment Allocation will show only direct investments, except for Feeder Funds, which will display the information of the Master Fund.

Additional Information of Investment Policy

K-GPEQ-UI will invest in EQT Nexus Fund SICAV - ENXF SICAV - I, Class I EUR-Z (the Master Fund) which invests in Private Equity through Fund Investments and Co-investments.

The Master Fund is a fund in the EQT Nexus Fund SICAV established under the laws of Luxembourg as a société d'investissement à capital variable (SICAV) and under the management of EQT Fund Management S.à r.l. and regulated by the Commission de Surveillance du Secteur Financier (CSSF) under relevant Luxembourg law.

The Master Fund divides unit trusts into Share Classes, which differ in details such as the minimum subscription, period for redemption, fee structure, currency, investor qualifications or other characteristics. K-GPEQ-UI will invest in Share Class I EUR-Z, which is a Share Class for investors who are financial professionals and trade in Euro (EUR). The Management Company reserves the right to consider changing the Share Class, including Invested currency. Such reservation of rights takes into account and protects the interests of unitholders and does not constitute a deviation from the fund project which received a resolution from unitholders. The Management Company will announce it to unitholders via the Management Company's website.

As for the remaining investment, K-GPEQ-UI may invest in equity instruments, hybrid instruments, debt instruments, deposit, CIS, property funds, infrastructure funds, derivatives for Efficient Portfolio Management, Structured Notes and/or securities or other assets as prescribed by SEC law. K-GPEQ-UI will invest in derivatives to hedge against exchange rate risk at fund manager's discretion.

K-GPEQ-UI may engage in derivatives with one or more underlying assets, including assets in which the Fund can invest, interest rate, exchange rates, credit, gold or crude oil. If the price of the underlying asset is very volatile or the investment direction is not as expected or the counterparty to the transaction is unable to pay its obligations on time. This may cause K-GPEQ-UI to suffer losses from investing in derivatives or Structured Notes. The Management Company may consider adjusting investments or entering into transactions to suit the situation to provide maximum benefit to unitholders. However, the Management Company will analyze and monitor factors affecting the price of the underlying asset including considering the reliability of the counterparty before making a transaction and following up continuously. K-GPEQ-UI will focus on transactions with counterparties that have investment grade credit ratings.

K-GPEQ-UI may invest in non-investment grade, unrated debt instruments and unlisted securities not exceed 100% of NAV.

K-GPEQ-UI and the Master Fund may invest in or make transaction that the Maximum Limit in such investments or transactions is as follows:

1) K-GPEQ-UI may invest in derivatives for Efficient Portfolio Management purpose and structured notes (only derivatives part) not exceed 150% of NAV.

The Master Fund may invest in derivatives for Efficient Portfolio Management purpose without limit.

2) K-GPEQ-UI may borrow and use repurchase agreement for investment purpose not exceed 50% of NAV.

The Master Fund may borrow not exceed 30% of total assets.

3) K-GPEQ-UI may invest in Private Equity Funds not exceed 150% of NAV.

The Master Fund may invest in Private Equity Funds not exceed 130% of total assets.

However, K-GPEQ-UI and the Master Fund will not engage in short sale.

In addition, K-GPEQ-UI may invest in other mutual funds under the same management company not exceed 100% of NAV and such other mutual funds may invest in any mutual funds managed by the same management company not exceeding 1 level.

In the case where the unitholder request a large amount of redemption order and/or the Fund is waiting to pay the redemption proceeds to unitholder. K-GPEQ-UI might not have investment proportion as a feeder fund in some periods.

Investment Objectives and Strategy of the Master Fund

The Master Fund seeks to generate attractive risk-adjusted returns and medium-to-long term capital appreciation by investing in Private Equity.

The Master Fund is actively management and aim to achieve its investment objective by investing, as a feeder fund, all or substantially all of its assets into ENXF (Master) FCP and the ENXF (Master) FCP will, in turn, invest through ENXF Aggregator SCSp for the purpose of indirectly holding the Master Fund's investments. The Master Fund, ENXF (Master) FCP and ENXF Aggregator SCSp may each make investments through special purpose vehicles or other investment vehicles.

Investment Policy of the Master Fund

The Master Fund intends to focus the amounts subscribed to The Master Fund in;

- (1) Making Fund Investments which invest in a portfolio of private market, commingled, blind-pool funds which are managed, advised and/or operated by, or affiliated with, EQT.
- (2) Co-investments alongside EQT Funds.
- (3) Liquidity assets (Liquidity Sleeve).

The Master Fund intends to initially have a significant focus on the following EQT business lines:

1. Private Capital

1.1 EQT Private Equity : Applying a thematic investment approach, with the aim of identifying high-quality mid-to-large-sized companies within prioritised sectors and sub-sectors in core geographies (primarily Europe and North America). The EQT Private Equity investment advisory team is currently organized around four sectors: healthcare, technology, services and industrial technology.

1.2 BPEA EQT : BPEA EQT combines the private equity advisory teams from Baring Private Equity Asia (“BPEA”) and EQT Asia. The objective of BPEA EQT’s investment program is to provide investors with broad-based exposure to the potentially higher rates of economic growth in Asia.

1.3 EQT Ventures : The EQT Ventures investment strategy currently focuses on an early-stage strategy to make equity investments typically ranging between EUR 2 million and EUR 50 million, from late seed rounds to growth rounds.

1.4 EQT Growth : Focusing on partnering with founders and management teams of well positioned companies through growth investments in a range of technology, technology-enabled, and fast-scaling industries aligned with EQT’s key investment areas such as health technology, enterprise technology, consumer technology and climate technology. This investment strategy seeks for the funds to make equity investments in high-growth companies, and investments currently typically range between EUR 50 million and EUR 200 million. EQT Growth currently primarily focuses on the European market.

1.5 EQT Future : Investing into the “Climate & Nature” and “Health & Wellbeing” sectors. The strategy focuses on investing in portfolio companies in EQT’s core European markets and may also seek to make investments in portfolio companies in the United States, targeting control, co-control, and minority equity investments in large-sized companies with attractive market positions and strong downside protection.

1.6 EQT Life Sciences : Investing predominantly in private, highly innovative, early-to-growth-stage drug development, specialty pharma, medical technology, diagnostic and digital health companies.

2. Real Assets

2.1 EQT Value-Add Infrastructure : Targeting strong-performing infrastructure companies that it believes provides essential services to society.

2.2 EQT Active Core Infrastructure : Extending EQT Infrastructure’s investment scope, seeking to engage in attractive investment opportunities with a lower risk and with more predictable returns. The EQT Active Core Infrastructure Fund will focus on investments which are primarily connected to, or which have their principal assets located in, Europe and North America.

2.3 EQT Exeter : Focusing on acquiring, developing, leasing and managing properties across all major real estate asset classes.

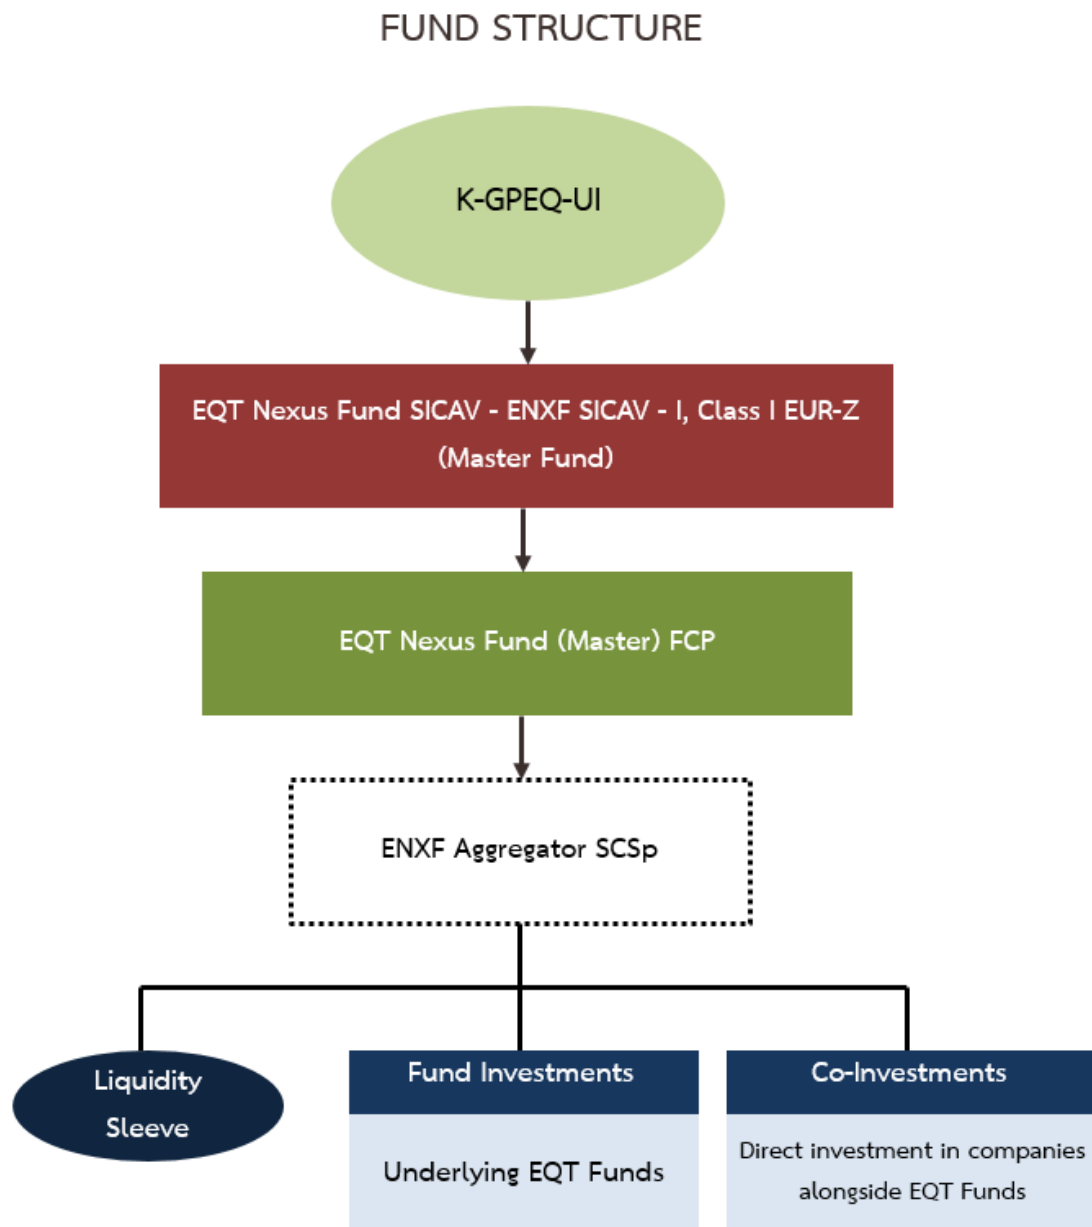

The Master Fund with approximately 50% to 70% of amounts (which are not allocated to the Liquidity Sleeve) allocated to EQT’s key funds within the EQT Private Equity and the EQT Value-Add Infrastructure business lines.

In addition, the Master Fund will target an allocation of up to approximately 20% of the NAV of its investments in public and private debt and other securities as well as cash holdings, in order to provide income, facilitate capital deployment and act as a potential source of liquidity, in each case on a discretionary basis. (Liquidity Sleeve)

Subject to the ramp-up period and other exceptions, the Master Fund will not directly or indirectly invest more than 20% of its NAV at the time of investment in any single Investment.

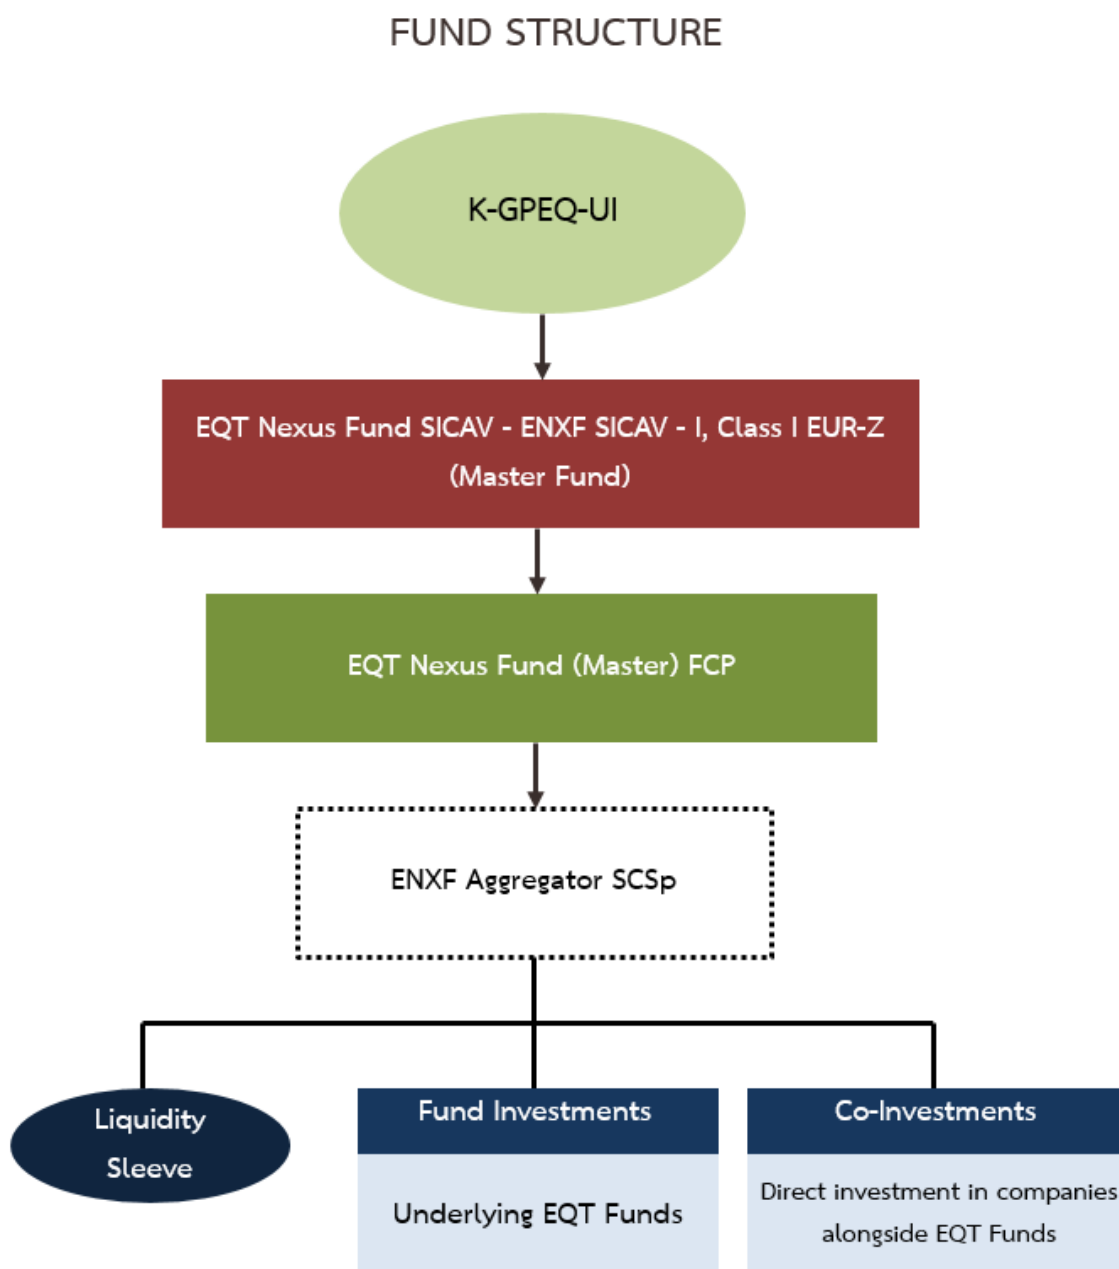

The Fund will not, however, incur indebtedness, directly or indirectly, that would cause the Leverage Ratio to be in excess of 30%.

A summary of the main points of the EQT Nexus Fund SICAV - ENXF SICAV - I (the Master Fund) has been selected only for the important parts and translated from the original English documents. Therefore, in the event that there are differences or inconsistent with the original English documents shall be based on the original English documents as the criterion. However, if the Master Fund changes any of the above information which the Management Company considers not significant, the Management Company reserves the right to change such information to be consistent with the Master Fund.

Risk disclosure of K Global Private Equity Fund Not for Retail Investors

I acknowledge and fully understand the Fund's feature, investment policy, investment strategies and risks associated with K Global Private Equity Fund Not for Retail Investors (K-GPEQ-UI) that;

1. K-GPEQ-UI may invest in Private Equity Fund not exceeding 150% of NAV, therefore K-GPEQ-UI is classified as a high risk or complex fund which is different and riskier than general funds. In addition, private equity are securities with **low liquidity and volatile prices**. **Investors may lose the principal or do not receive the expected return**. This Fund is suitable for investors who have a good understanding of this type of securities and are able to accept high losses. However, investors will not lose more than the investment amount.

2. The Master Fund may have investments concentrated in Europe, healthcare, technology and industrials sectors. Therefore, K-GPEQ-UI is **more risky than other private equity fund that diversifies investment in various of businesses**.

3. The Master Fund may borrow for investment. Therefore, the greatest negative impact from investment will occur in the case of a successful exit cannot be effected at the time and at the price desired, **may cause the Master Fund to suffer losses and may be filed a lawsuit that will affect K-GPEQ-UI's performance.**

4. Although using leverage can increase an ability to invest and potential returns. However, If an event occurs that negatively affects the Master Fund or the investment direction is not as expected, **it may cause the Master Fund to suffer higher losses.**

5. **Investors should consider their own liquidity before deciding to invest in the K-GPEQ-UI** because K-GPEQ-UI has the redemption period on a quarterly basis. Unitholders must submit a redemption order at least 30 Business Days prior to Redemption Date and will receive payment for such redemption within 40 Business Days from the redemption date. Unitholders will be able to redeem the investment units when holding such investment units for a period of 18 months or more from the month in which the Management Company subscribes to investment units.

6. The Master Fund has a limit on net redemption each quarter not exceed 5% of NAV of the Master Fund, therefore partial redemption orders may be postponed to the next quarter. **As a result, unitholders may not receive full payment redemption proceed specified in the redemption order at the same time.**

7. Kasikorn Asset Management Co.,Ltd. as a fund manager of K-GPEQ-UI shall not participate in the management of the Master Fund. The investment of the Master Fund including the dissolution will be at the discretion of the Master Fund which has the knowledge, ability and expertise in investing in Private Equity. However, there is no guarantee that investments of the Master Fund will be successful.

I acknowledged the information above in relation to risks. I have studied the information of investment in **K Global Private Equity Fund Not for Retail Investors (K-GPEQ-UI)** including the risks and disclaimer of investment specified in the prospectus which I have already and thoroughly acknowledged. I consent to be bound by all regulations and conditions in the prospectus.

The investors should, in case appropriate, consult your selling agent regarding the consequences
