Description

Maximum Drawdown is the percentage of the fund's maximum loss in the past 5 years (or since the fund's inception if it is launched for less than 5 years) which is measured from the highest NAV per unit to the lowest NAV per unit during such period. Maximum Drawdown is an indicator of the risk of loss from investing in the fund.

Recovering Period is the length of time that the fund takes in recovering from the point of maximum loss to earning back the initial investment.

FX Hedging is the percentage of foreign currency investment with FX hedging.

Portfolio Turnover Ratio (PTR) is the frequency of securities trading in the fund portfolio over a certain period, calculated by taking the lower value between the sum of the value of securities purchased and the sum of the value of securities sold of the fund in 1 year period divided by the average NAV in the same period.

A fund with high Portfolio Turnover Ratio indicates frequent securities trading by fund manager resulting in high trading costs. Therefore, it is necessary to compare with the performance of the fund in order to assess the worthiness of such securities trading.

Sharpe Ratio is the ratio between marginal return of the fund compared to investment risk, calculated from the difference between the fund's rate of return and risk-free rate compared to the fund's standard deviation. Sharpe Ratio reflects the additional return that the fund should earn to compensate risk. A fund with higher Sharpe Ratio is considered having superior investment management efficiency as it generates higher marginal return under the same risk level.

Alpha is the fund's excess return compared to the benchmark. High Alpha means the fund can generate higher return than the benchmark resulting from fund manager's efficiency in selecting securities or seeking appropriate market timing.

Beta is level and direction of change in return of securities in portfolio in comparison to market price change. Beta of less than 1 indicates that the change in return of securities in portfolio is less than the overall market. Beta of more than 1 indicates that the change in return of securities in portfolio is greater than the overall market.

Tracking Error is the efficiency of the fund to imitate its return to benchmark. Low Tracking Error means the fund is effective in generating return close to benchmark. High Tracking Error means the fund generates return more deviate from benchmark.

Yield to Maturity is the rate of return earned on a bond held to maturity, calculated from the interest expected to receive in the future over that bond duration and paid back principal discounted to the present value. It is used to measure return of fixed income funds by calculating the weighted average of Yield to Maturity of each bond that the fund invests. As Yield to Maturity has standard unit in percentage per annum, it can be used to compare the returns between fixed income funds that have an investment policy of holding bonds until maturity and similar investment characteristics.

Duration and Yield to Maturity will be calculated based on direct investments.

The Investment Allocation will show only direct investments, except for Feeder Funds, which will display the information of the Master Fund.

***For purchase of ThaiESG Funds before January 1, 2024, and/or purchase of ThaiESG Funds from January 1, 2027, onwards, investors will receive a tax deduction of 30 percent of their income, applicable only to the portion not exceeding 100,000 Baht (provided that the investment units are held for at least 8 years from the purchase date).

Data as of September 4, 2024. In the event of any changes, the Company will update the information and announce it on the website www.kasikornasset.com. Investors must comply with the guidelines specified in each Fund's investment guide and the Revenue Department's regulations.

Important note regarding non-compliance with investment conditions

SSF

In case of non-compliance with SSF investment conditions
(investment units are redeemed before the required 10 year holding period ends)

1. All tax benefits previously received must be repaid. If the tax repayment is delayed, investors will be subject to a charge of 1.50 percent per month, calculated retroactively from April of the year in which the tax deduction was claimed until the date of repayment.
2. Any capital gains derived from the non-compliant redemption are considered income in the year of the redemption and must be included in your tax calculation. KASIKORN ASSET MANAGEMENT Co., Ltd. (KAsset) will withhold tax at the source per the applicable personal income tax rate.
3. If investment units are redeemed within one year of the purchase date, investors will be subject to an exit fee of 1.50 percent of the transaction value (currently waived).

For purchase beyond SSF limits (the portion in excess of taxable income or 200,000 Baht, whichever is applicable)

1. The investment amount that exceeds the limit is not tax-deductible.
2. Any capital gains derived from selling investment units that exceed the limit are considered income in the year of redemption and must be included in the tax calculation, even if the investment units have been held for more than 10 years.
3. If investment units are redeemed within one year of the purchase date, investors will be subject to an exit fee of 1.50 percent of the transaction value (currently waived).

RMF

In case of non-compliance with RMF investment conditions, and investment units are held for less than 5 years (from the purchase date)

1. All tax benefits previously received must be repaid. If the tax repayment is delayed, investors will be subject to a charge of 1.50 percent per month, calculated retroactively from April of the year following the year in which the non-compliant redemption is made.
2. Any capital gains derived from the non-compliant redemption are considered income in the year of the redemption and must be included in your tax calculation. KASIKORN ASSET MANAGEMENT Co., Ltd. (KAsset) will withhold tax at the source per the applicable personal income tax rate.

In case of non-compliance with RMF investment conditions and investment units are held for more than 5 years

1. Tax benefits received for the past 5 years must be repaid. If the tax repayment is delayed, investors will be subject to a charge of 1.50 percent per month, calculated retroactively from April of the year following the year in which the non-compliant redemption is made.
2. Any capital gains from the redemption shall not be included in your tax calculation.

For purchase beyond RMF limits (the portion in excess of taxable income or 500,000 Baht, whichever is applicable)

1. The investment amount that exceeds the limit is not tax-deductible.
2. Any capital gains derived from selling investment units that exceed the limit are considered income in the year of redemption and must be included in the tax calculation.
3. Non-compliant redemption of investment units that exceed the limit may be considered non-compliance with the investment conditions of the entire RMF.

ThaiESG

In case of non-compliance with ThaiESG investment conditions (investment units are redeemed before the required 5 year** and/or 8 year*** holding period ends)

1. All tax benefits previously received must be repaid. If the tax repayment is delayed, investors will be subject to a charge of 1.50 percent per month, calculated retroactively from April of the year in which the tax deduction was claimed until the date of repayment.
2. Any capital gains derived from the non-compliant redemption are considered income in the year of the redemption and must be included in your tax calculation. KASIKORN ASSET MANAGEMENT Co., Ltd. (KAsset) will withhold tax at the source per the applicable personal income tax rate.
3. If investment units are redeemed within one year of the purchase date, investors will be subject to an exit fee of 1.50 percent of the transaction value (currently waived).

For purchase beyond ThaiESG limits (the portion in excess of taxable income or 300,000 Baht and/or 100,000 Baht***, whichever is applicable)**

1. The investment amount that exceeds the limit is not tax-deductible.
2. Any capital gains derived from selling investment units that exceed the limit are considered income in the year of redemption and must be included in the tax calculation, even if the investment units have been held for more than 5 years** and/or 8 years***.
3. If investment units are redeemed within one year of the purchase date, investors will be subject to an exit fee of 1.50 percent of the transaction value (currently waived).

** Tax benefits of ThaiESG Fund as per the Cabinet Resolution on July 30, 2024

*** For purchase of ThaiESG Funds before January 1, 2024, and/or purchase of ThaiESG Funds from January 1, 2027, onwards, investors will receive a tax deduction of 30 percent of their income, applicable only to the portion not exceeding 100,000 Baht (provided that the investment units are held for at least 8 years from the purchase date).
