Disclaimers

- Investments in investment units are not the same as a bank deposit, and bear certain investment risks. Investors may receive a return on their investment capital that is either more or less than the initial investment capital, may not receive the redemption proceeds within a specified time, may not be able to redeem the investment units as instructed, or may not be able to make any transactions due to technical errors. Investors should trade in investment units with a registered broker. Transactions conducted via the Internet may not be consummated if technical errors occur.

- In the event of unusual circumstances, investors may not receive the redemption proceeds within the period of time as specified in the prospectus.

- In the case of foreign investment in fund portfolio

- In case of any fund that partially hedge against currency risk or follows by the fund manager's discretion or does not hedge against currency risk since the fund does not hedge against full currency risk, the investors therefore may encounter loss or obtain the profit from currency or lower investment amount than its initial investment fund.
- Since the fund invests in overseas, as a result, any changes within such country including political or financial policy changes, as well as

I have duly received and understood the redemption regulations, and hereby agreed to all the terms, conditions and other details stated in the prospectus, including all tax obligations pertaining to all types of funds. (Please press "ACCEPT" to continue or press "CANCEL" to return to main page.)

Customer Risk Profile

Questionnaire for Customer Risk Profile Assessment

Choose only 1 best answer for investor

I. For General Investment

1. How old are you?

☐ Over 60 years
☐ 50 – 60 years
☐ 35 – 49 years
☐ less than 35 years

2. Your education level

☐ Lower than bachelor degree
☐ Bachelor degree or higher

3. Your investment experience in securities (Securities means investment units or debt instrument or stock or government bonds or derivatives)

☐ No
☐ Less than 1 year
☐ 1-5 years
☐ More than 5 years

for question 4 – 6 * the money you intend to invest means the money that you plan to invest in all KAsset funds by mainly considering on the part of money that you can tolerate the highest risk

4. The estimated period that you will not need to use the money you intend to invest*

☐ Less than 1 year
☐ 1-3 years
☐ 3-7 years
☐ More than 7 years

5. Do you need returns from the money you intend to invest* to use for your regular expenditures?

☐ Need most
☐ Need some
☐ Minimal need
☐ No need

6. The ratio of the money you intend to invest* to your total assets

☐ More than 60 %
☐ 30-60 %
☐ 10 – 30 %
☐ Less than 10 %

7. Your attitude about investment

☐ Cannot tolerate any principal loss, even though there is a chance of some higher returns
☐ Can tolerate minimal principal loss in order to get a chance of some higher returns
☐ Can tolerate principal loss in order to get a chance of higher returns
☐ Want to get high returns without any investment limits

8. Investment in highly-volatile securities often generates high returns in the long term but there is a risk of incurring huge losses. What level of investment risk can you accept?

☐ The least. I prefer investment that generates regular cash flow and ultimate security in investment, even though the returns will be the lowest.
☐ A certain level. I can accept some risk from investment loss in order to increase the chance of high returns in the long term.
☐ Moderate. I can accept reasonable risk in order to create a chance for higher returns in the long term.
☐ High. I can accept the highest risk in order to create a chance for the highest returns in the long term.

9. Sometimes, investments that focus on securing investment principal will generate lower-than-inflation returns which could reduce your spending power. Considering your investment objectives, which idea fits you the most?

☐ Investment principal must be secured, even though the returns will be lower than the inflation rate.
☐ Can accept some investment principal loss in order to maintain investment returns at higher-than-inflation level
☐ Focus on generating returns that are higher than inflation rate by a certain level and can accept investment risk
☐ Would like to get maximum returns that are higher than inflation rate and can fully accept investment risk

10. How much loss can you accept from investment in mutual funds?

☐ Less than 10 %
☐ 10 to 20 %
☐ 20 to 50 %
☐ More than 50 %

II. For investment in mutual funds with a policy of foreign investment by 20 percent of NAV or higher (Not include in Risk Level Calculation)

Could you accept currency risk?

☐ Yes
☐ No

I hereby certify the accuracy of the information provided herein, and hereby acknowledge and agree to the above terms and agreements as well as any remark which appear in this Questionnaire. In addition I acknowledge KAsset's right to amend the terms and conditions in this Questionnaire in the future.
